

INVESTMENT STRATEGY

MAY 2022

The portfolio seeks to provide investors with long term capital growth. It maintains a high risk profile and at least 80% of the portfolio's net asset value will be invested outside of South Africa, with no more than 80% exposure to assets of a specific geographical region. The portfolio has maximum flexibility to vary assets between various markets and asset classes to reflect the changing economic and market conditions.

* Returns quoted are those of the target CIS portfolio from launch to date. All returns prior to launch date are simulated using the historic model portfolio returns, and are net of published asset manager fees. The returns are stitched together to simulate a longer period. Returns greater than a year have been annualised.

** The Total Investment Charge (TIC) is the sum of Total Expense Ratio (TER) and Transaction Costs (TC), which indicates the percentage of the value of the portfolio which was incurred as costs relating to the investment of the portfolio.

Exposure to certain asset classes may be derived by using listed and unlisted derivatives, as permitted in the legislation, and not holding the physical asset.
