

INVESTMENT STRATEGY

DECEMBER 2023

The portfolio seeks to provide investors with income and conservative capital growth with a focus on capital preservation. It aims to achieve a return in the range of 2% above inflation over rolling three-year periods. This will be done by investing in a spread of equity securities, non-equity securities, money market, property and listed and unlisted financial instruments, both locally and abroad. The portfolio maintains a low risk profile and the portfolio's equity exposure will be limited to a maximum of 40% of the portfolio's net asset value. The portfolio will comply with Regulation 28 of the Pension Funds Act.

* Returns quoted are those of the target CIS portfolio from launch to date. All returns prior to launch date are simulated using the historic model portfolio returns, and are net of published asset manager fees. The returns are stitched together to simulate a longer period. Returns greater than a year have been annualised.

** The Total Investment Charge (TIC) is the sum of Total Expense Ratio (TER) and Transaction Costs (TC), which indicates the percentage of the value of the portfolio which was incurred as costs relating to the investment of the portfolio.

Exposure to certain asset classes may be derived by using listed and unlisted derivatives, as permitted in the legislation, and not holding the physical asset.
